OCTOBER 2004 JOINT MEETING

Computer Graphics Film Show
SIGGRAPH Video Review

(joint meeting with **ACM SIGGRAPH – Princeton Chapter** and **Princeton Media Communications Association**)

Jeff Posdamer, CACI

For the twenty-fifth year in a row, we are kicking off our season of meetings with the very popular computer graphics film show. This will also be the ninth year for our current graphics speaker, **Jeff Posdamer**. Jeff will be showing some of the latest and greatest of the computer generated animated films that were shown at recent ACM/SIGGRAPH computer graphics conferences.

Jeff will show a variety of technologies: scientific visualization graphics, commercial graphics used in television and movies, and some examples of current computer graphics research. The films include everything from state-of-the-art supercomputer technology to graphics that can be done with today's personal computers. Come see why this is the best attended meeting we have all year.
