

PRINCETON ACM / IEEE-CS CHAPTERS
OCTOBER 2008 JOINT MEETING

Computer Graphics Film Show SIGGRAPH Video Review

(joint meeting with ACM SIGGRAPH – Princeton Chapter and Princeton Media Communications Association)

Jeff Posdamer

It's time again to kick off our season of meetings with the annual computer graphics film show, featuring the latest and greatest computer animations direct from the ACM SIGGRAPH conference held this summer in Los Angeles.

Our speaker this year, **Jeff Posdamer**, has presented talks on computer graphics for our chapter many times over the past 13 years. Jeff will be showing some of the latest and greatest of the computer generated animated films that were shown at recent ACM/SIGGRAPH computer graphics conferences.

Jeff will show a variety of technologies: scientific visualization graphics, commercial graphics used in television and movies, and some examples of current computer graphics research. The films include everything from state-of-the-art supercomputer technology to graphics that can be done with today's personal computers. Come see why this is the best attended meeting we have all year.
